Study exploring the impact of patient experience data in acute NHS hospital trusts in England.

The following documents have been given to the King’s College Researcher for use in an independent (NIHR-funded) study exploring the impact of patient experience data in acute HHS hospital trusts in England.

In releasing these documents I understand that the documents will be anonymised by the research team, and that if used in any presentations, written reports or papers neither the Trust nor any individuals will be identifiable.

Type of document	Description of documents	Name of Trust staff member	Job title of Trust staff member	Signature of Trust staff member	Signature of researcher
1. Patient Experience Documents; Data Sets; Presentations & Feedback to/from Trusts, Divisions and Services
