Five minute speech sample

Please read the following text to the participant.

“I’d like to hear your thoughts and feelings about (child’s name), in your own words and without my interrupting with any questions or comments. When I ask you to begin I’d like you to speak for 5 minutes, telling me what kind of a child (child’s name) is and how the two of you get along together. After you begin to speak, I prefer not to answer any questions until after the 5 minutes are over. Do you have any questions before we begin?”

To interviewer: begin your audio-recorder and then stopwatch. If there are still a couple of minutes to go and the subject is silent for 30 seconds and appears unable to continue, make one comment:

“Please tell me anything about (child’s name) for a few more minutes.”
